3-4 hours

Turning Your Speaker On/Off

Slide the power switch to turn your speaker on or off.

- 1. Turn on the speaker. You will hear a prompt tone, and the LED indicator will flash continuously, indicating that the speaker is ready for pairing.
- 2. Enable Bluetooth on your device and search for the speaker.
- 3. Select the newly detected speaker (EasyAcc-DP100). If necessary, enter the PIN '0000' (4 zeroes) to complete pairing.

Note: Once Bluetooth is enabled, the speaker will automatically connect to the last device it was connected to. If you would like to pair it with another device, either disable Bluetooth on the first device and turn off the speaker, or delete the speaker's pairing record from said device. Then follow the steps above to pair your speaker with the new device.

Playing Music

Press the "▷" button to play/pause your music. Press " — " to go to the previous track and " + " to go to the next track.

Volume Adjustment

Hold the "+" or "-" button to adjust volume.

Playing Music via a 3.5 mm AUX Cable

Connect one end of the 3.5 mm AUX cable to the speaker's AUX port and the other end to your device. You can now play the music on your device.

Telephone Function

- Answering a call: Press " ▷ " to answer an incoming
- Ending a call: Press " ▷" to end a call.

Note: The maximum effective distance of the built-in microphone is 20 cm (0.65 ft).

Charging Your Speaker

Insert the micro USB end of the charging cable into the charging port to charge the speaker.

Usage Tips

- Make sure your devices are Bluetooth-enabled. • Make sure the speaker is fully charged before using it for the first time.
- Turn the speaker off when it is not use, as well as before storing it. Obstructions such as walls and pillars may influence
- the operating range of the speaker. These should be avoided in order to ensure a stable connection.
- In order to protect the circuitry of the speaker and ensure the long-term performance of the built-in
- battery, do not play music while charging the speaker. • To protect the long-term performance of the built-in battery, do not use or keep the speaker in a hot environment (above 60°C/140°F), such as in a hot vehicle or under direct sunlight.
- Do not expose the speaker or any of its accessories to liquids.

FAQ

Why won't the speaker connect to my device?

- 1. Make sure your device's Bluetooth function is enabled. information. 2. Make sure your device is within 1 m/3 ft of the speaker. 3. Delete the speaker's pairing record from your device if steps 1 and 2 do not solve the problem. Then re-pair your device with the speaker.

Why can't I play music and charge my speaker at the same time?

To ensure the long-term performance of the battery, the speaker should be charged while off, especially when the battery is low.
